Heavy Duty Gear Reduction Design

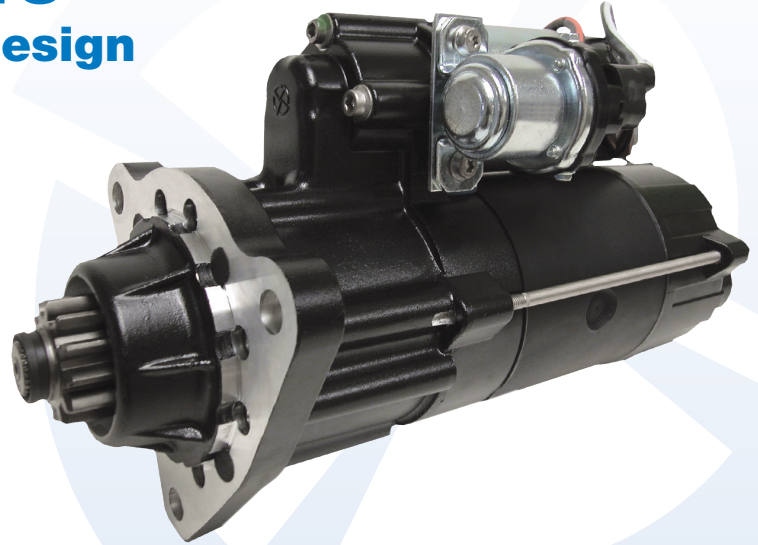

12V 7kW

Ideal for Diesel Engines Up to 16L

Drop-In Replacement for 39MT[†]

Leece-Neville PowerPro™ starters offer unmatched reliability and performance in a space-saving package. These advanced starters integrate the latest technologies available to provide reliable performance at each and every start, including an electrical soft-start relay that allows the pinion to properly engage the ring gear before cranking plus over-crank protection that protects the starter from high-temperature damage when starting the motor in extreme conditions.

PowerPro™ 7 high-torque starters for heavy duty diesel engines up to 16L include a heavy duty gear reduction design that delivers 12V 7kW starting power. Engineered to include global technologies developed by Prestolite, PowerPro 7 starters can help to significantly reduce overall operating costs and maintenance-related downtime.
